

Environmental and Sustainability Policy

Transdev Sydney is the operator and maintainer for the Sydney Light Rail network.

The Transdev Sydney vision is for an environmentally sustainable light rail network and an environmentally responsible culture.

1. Promote the benefits of light rail as a valuable, efficient and environmentally-sustainable transport option;
2. Promote an environmentally aware, responsible culture within the organisation and among our customers;
3. Provide Senior Management leadership to proactively manage environmental risks and opportunities at both a strategic and operational level;
4. Apply a risk management approach to mitigating adverse environmental impacts, including human-induced climate change;
5. Comply with all relevant environmental legislation, policy, regulation, statutory, voluntary obligations and other requirements to which Transdev Sydney subscribe to;
6. Set and review environmental and sustainability objectives and targets;
7. Protect the environment, prevent pollution, effectively utilise resources and continue to look at ways to minimise waste;
8. Proactively engage with and form long-standing partnerships with our stakeholders including government, industry and the community on environmental and sustainability issues;
9. Establishing the Environmental and Sustainability Policy, Environmental Management System and Environmental Management Plans to set out environmental and sustainability responsibilities and processes;
10. Communicating this Environmental Policy and Environmental Management System to employees and contractors;
11. Requiring employees and contractors to operate in an environmentally responsible manner and providing appropriate training for awareness and education for our employees and contractors on environmental and sustainability issues and specifically to individuals with environmental and sustainability responsibilities;
12. Continually improving the Environmental Management System and Management Plans to enhance environmental and sustainability performance.

This policy applies to all Transdev Sydney employees and contractors.

Arsene Durand-Raucher
Managing Director Light Rail
